Dear Faith,

I am writing to let you know how much the Runkle community appreciates the work of the Kids Coats program. This fall, several teachers asked me to help find winter coats for some children from lower income families. Not only did your program quickly provide warm coats to every child who needed one, but it was handled in a respectful manner that protected the children's privacy. Some of the children were so happy with their coats that they wore them the entire school day! It is comforting to know that your program is available to help these Runkle families, and I know that we will need to look to you again in the future. Thanks again for the support you provide to our children and families!

Sincerely,
Nadene Moll
